## Compact. Portable. Ready to go wherever you need it!

The AVer U70i is an affordable document camera that combines a modern new look with advanced optics, perfect for classroom lessons and lecture capture. Packed with premium features, such as its 13-megapixel sensor that allows for crisp 4K images. The U70i's 16X digital zoom delivers best-in-class performance, enabling vibrant ultra-clear images. The new built-in cable management system allows quick and easy wrapping, making it the perfect document camera for the modern teachers on the go. This document camera is the ideal accessory to keep your students engaged, whether they're in the classroom or learning remotely.

### Clear imaging & adaptability

The 13 megapixels camera outputs 4K video at 30 fps or 1080p video at 60 fps, giving you options on how to share content with your students in the classroom or online. The U70i also has a built-in intelligent microphone with AI noise reduction, making your voice predominant in a loud environment.

### Both doc cam and webcam

Powered by USB, the U70i can easily connect to your device allowing for smooth transitions between lessons. The camera view will seamlessly flip between document and webcam mode, providing educators with the flexibility to switch between focusing on objects or capturing lessons.

## Flexible & portable design

The U70i has an improved, shorter flex arm that locks in place for easy carry and travel. The smaller base combined with the exclusive brand-new cable management system makes it quicker and easier to store and transport it between school and home.

## Fully loaded, yet simple

The U70i combines the advanced technology of a high-resolution camera with the flexibility necessary to make everyday teaching uncomplicated. The built-in intelligent mic and LED lamp allow for a seamless experience for both teachers and students alike. To make things even better, AVer offers top of the industry inclusive 2-year warranty.
