FLYINGVOICE

HP200

Headset

HP200 is a headset with wire-controlled designed for office and operators in call center. It is easy to use for its light weight, fashionable design, comfortable sponge cushion, adjustable headband and microphone boom.
HP200 can easily connect with Flyingvoice P2X series phones, and can answer or hang up through the wire-controlled key, making the call more flexible and efficient.

Key Features

- Suitable for Flyingvoice P2X phones
- Directly connected to RJ9 for higher reliability
- One-button control of on-off hook
- Noise-reduction microphone reduces intensive call interference effectively
- Adjustable headband for wearing comfort
- Ultra-light weight, suitable for operators to wear for a long time
- 320° rotable microphone boom
- No need to install drivers
- 360° rotating earmuffs for seamless fit
